

852 / 952

Rail-mounted butt-end sewing machine

852 / 952

Rail-mounted butt- end sewing machine

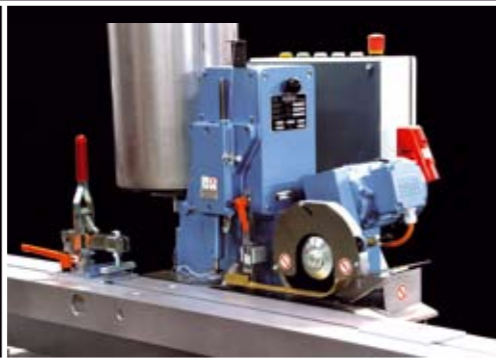

for heavy to heaviest materials such as coated carpets, plastic materials, conveyor belts, rubber, foam materials, glass fiber, filter materials, sisal, etc.

These extremely robust sewing machines produce extremely strong and broad seams. The seam width is appr. 70mm for the 852. The seam width of the 952 is appr. 90mm.

A special mechanism minimizes needle deflection also in the case of hard and stiff fabrics which can not be sewn on conventional sewing machines.
